STRATEGIC CONSULTING

LAWS

1.

GDPR (GENERAL DATA PROTECTION REGULATION)

- THE BUSINESS MUST ENSURE TRANSPARENCY, MINIMIZATION, AND RESPECT FOR DATA-SUBJECT RIGHTS.

- MOVEMENT ANALYSIS OVER TIME → BEHAVIORAL PROFILING

2.

COSTUMER PROTECTION LAWS

- CUSTOMERS MUST BE INFORMED THAT TRACKING TECHNOLOGIES ARE IN USE.

- DATA CANNOT BE USED TO MISLEAD OR DISCRIMINATE OR UNFAIRLY INFLUENCE PURCHASING BEHAVIOUR

3.

EU AI ACT (OUR SUGGESTION)

- ANY USE OF AI MUST BE TRANSPARENT IN ORDER FOR USERS TO BE AWARE.
- DEPLOYERS OF AI GENERATED DEEP-FAKES MUST DISCLOSE THAT THE CONTENT HAS BEEN ARTIFICIALLY GENERATED
- ANY USE OF AI WILL BE MONITORED AFTER BEING IMPLEMENTED

4.

REALITY CHECK

DOABLE ON TIME

- SIMULATED WI-FI AND SALES DATA
- SIMPLE RECOMMENDATIONS
- FOOTFALL PREDICTIONS

NOT DOABLE ON TIME

- REAL-TIME PRODUCTION SYSTEMS
- AUTOMATION OF DECISIONS
- LARGE SCALE DEPLOYMENT

RESTRICTIONS AND LIMITATIONS

FINANCIAL CONSTRAINTS

- HIGH COST OF SENSORS AND INFRAESTRUCTURE

- SMALLER RETAILERS MIGHT NOT BE ABLE TO AFFORD IT

DATA AVAILABILITY & QUALITY

- SENSOR DATA CAN BE INCOMPLETE, OR INACCURATE.

- IDENTIFYING CUSTOMERS WITHOUT VIOLATING PRIVACY LAWS IS CHALLENGING
