Restock recommended by 13:00

Data Integrity & Compliance

Retail-Flow operates under strict anonymization protocols.

GDPR Compliant | CCPA Ready | SOC2 Type II

Fully Anonymized

Sensor data is aggregated instantly. No facial recognition or personal device tracking is utilized at any point.

End-to-End Encryption

All data in transit and at rest is encrypted using AES-256 standards. Keys are managed via hardware security modules.

Audit Trail

Every data access event is logged. Immutable audit logs are available for compliance reviews upon request.
